FORMER RESIDENT OF BUENA VISTA SUICIDES

J. H. Hamilton Ends Life in Oakland Last Week By Shooting Himself.

The following article taken from the Oakland Tribune refers to J. H. Hamilton, who formerly resided at Buena Vista. Hamilton was inclined to dissipate and his folks sent him to the ranch formerly owned by Lesser brothers to try and straighten him out. Drink however seemed to cause him considerable trouble and while here he was arrested for passing a worthless check on Harry Fine.

The matter was squashed and Hamilton soon after left Sonoma valley. One of his children was born here. His tragic end will be read with regret by former neighbors and acquaintances of the family.

"After kissing his two sleeping babies, J. H. Hamilon, a barber, asked his wife to come to the front door with him. When she refused he stepped into the hallway and fired one shot through his temple, instantly killing himself.

The shooting took place in the home of Frank Nebeken, an attorney, who resides at 1158 Oakland avenue, Piedmont. Mrs. Hamilton had been taking care of the Nebeken home, while the family was away on their vacation. Following the shooting Mrs. Hamilton notified the Oakland police department. Hamilton died en route to the emergency hospital.

Mrs. Hamilton told Police Inspectors Edward J. O'Donnell and Chas. Appledorn that her husband had been despondent for some time on account of ill health and financial trouble. For the past month Hamilton had been attending the barbers' college in San Francisco. He has been stopping in that city on account of the long hours he was working.

Mrs. Hamilton said when her husband come home last night it was late and he had been drinking. Hamilton was 32 yearss old. The children are a boy, 4 years, and a baby girl of 9 months.

WAS IT TONG MEN OR ONLY A PIPE DREAM

Chinese Family Becomes Hysterical And Shoot Up Premises Tuesday Night, Wounding Mrs. Hop Lee In Fracas.

The residents of Sonoma in the vicinity of the Chase tract were startled about midnight Tuesday by a fusilade of bullets, and the shooting brought Deputy Sheriff Ryan to the barn on the Geo. Chase place where Hop Lee, a Chinaman and his family had been making their home. The officer found that Mrs. Hop Lee had been wounded and the excited Chinese told a lurid tale of what they believed to be an attempted assassination by tong men. They declared that mysterious prowlers had tried to gain access to their quarters and that Hop Lee immediately began shooting through the door to protect himself and family. His two sons also grabbed guns and did some shooting when they saw that their mother had been wounded. The officer investigated and was of the opinion that all the shooting had been done from within by the Hop Lee's own weapons. He was sure of it when Mrs. Hop was taken to Dr. Thompson's office and a bullet from Hop Lee's gun taken from the back of her thigh. Another smaller bullet evidently from a 22 had gone through the woman's hand. A 22 had been fired by one of the Chinese boys. A regular arsenal was found in the house.

Mrs Hop Lee was not dangerously wounded but the family were in a hysterical state over what they believed to be the starting of a tong war here. Officers found no trace whatever of any strange Chinese in this vicinity and think the Hops had a pipe dream or had been reading some lurid China newspaper of the yellow journal type.

In Chinese circles here there is gossip to the effect that Mrs. Hop Lee was a widow with two sons when she married the Chinese fruit buyer and that possibly a family quarrel led to the melee.

A few years ago when Joe Lock, prominent young Chinese merchant resided here, there was a real tong war imminent. The Bing Kongs were said to have put a price on his head and he was under cover for some time.

Mrs. Wilson of Eldridge accompanied by her mother, Mrs. E. Kreiss, left this week for an extended motor trip which will take them into Nevada.

Sebastiani to Build Modern Hotel and Stores in Sonoma

CLOSES DEAL FOR LAURENZI PROPERTY AND WILL TEAR DOWN THE OLD SONOMA HOUSE.

Following close upon his return from the East, comes the announcement that Sam Sebastiani has closed the deal with the Laurenzi family for the purchase of the old Sonoma House property on the East side of the plaza and will erect a modern fire proof hotel and several concrete store buidings on the property. The Fior D'Italia Hotel as the building is now called, will be razed and an up-to-date hotel of 40 or 50 rooms with baths and running water will be put up for John Decanini, the present proprietor.

Mr. Sebastiani's improvements are always high class, so Sonoma will be assured handsome and substantial improvements which will add much to the appearance of the business district and be a decided asset to the town.

VINEBURG NEWS

After several week's visit at the John Batto residence, Mr. and Mrs August Figone and family returned to their city home on Sunday last after a delightful vacation.

Our station agent, Grove C. Rubke, is sure busy at the present time looking after the large shipments of 10 to 12 carloads of fruit daily, as well as the passengers and express, etc. But that don't seem to worry Grove any as he is just as pleasant and sociable to the people as a "star boarder at a swell summer resort.'"

Mrs. Fred Batto and son Master Herbert John Batte returned from the metropolis on Wednesday eve after a week's visit as the guests of friends and report a pleasant time.

Mr. and Mrs. Edward Johansen and charming daughter, Miss Gertrude of Vallejo were transacting business and exchanging greetings with friends in this vicinity several days this week. On Tuesday Miss Gertrude was the guest of her old schoolmate and "pal" Miss Emily Batto

Mrs. Louis Martin and children have returned after a 10 day's visit to friends in the metropolis and bay cities. During their stay they motored to Monterey and enjoyed a splendid time.

id time.

Business is sure booming at our packing house. Tons upon tons of fruit are being handled daily by the employees, for it takes between 30 and 40 people just to keep the "apples moving." Up to date about 20 straight carloads of choice apples, "Valley of the Moon" brand have been shipped to the principal cities of the United States and we have just started to ship. Leave the rest to Sonoma Valley Apple Growers Association."

Wm. E. Hebberg "Our Willie" and his able assistant Roy Wyatt of the Earl Fruit Co. are busy men these days and they certainly are experts in the pear packing game. They manage to ship east about 3 car loads a day.

Every orchardist and fruit man in this vicinity is now busily engaged in picking and shipping crops of fruit.

Mr. and Mrs. Carl Berger and children of Bakersfield motored up from their southern home and are the guests of friends in this part of the valley.

Miss Evelyn Batto, better known to her school mates as "Little Starlight," returned home on Sunday last after a weeks visit with her uncle and aunt, Mr. and Mrs. Chas. Groskopf at Petaluma. The little lady reports a delightful time in the "Egg City."

LISTEN TO THE SIREN
FIRE CHIEF IS COMING!

On Monday the residents in the vicinity of Glen Ellen should keep their ears open for the siren of the Boyes and Valley Fire Department engine. Chief Cause will be around to collect your donation for the "Valey Angel." The splendid work of the engine and the volunteer firemen speaks for itself. Be ready to contribute.

INSTITUTION OF FORMER ELDRIDGE DOCTOR UNDER FIRE

The Weimar sanitarium for tubercular patients in Placer county is under fire, charges of immorality in the place having been made against it. Dr. Whittington, formerly of Eldridge is the head of the institution and friends in Sonoma Valley where he had a splendid reputation feel that the doctor has not been cognizant of anything wrong or that the charges are the result of political trickery, which will come to light.

Dr. and Mrs. Whittington and son went to Weimar about a year ago after leaving the State Home here.

VANDALISM OF HUNTERS CAUSES FIRE ON RANCH

Hicken Place Above Caliente Burned Over and Mrs. Hicken Saved From Exhaustion By Timely Arrival of Help.

One of the worst cases of vandalism in recent years was the destruction by fire Thursday of property on the Huddart ranch above Caliente caused by hunters who have recently been invading the premises in that vicinity and causing great damage and worry to residents. Mrs. Hickin who resides on the Huddart place heard shooting Thrusday and having had many turkeys killed by hunters of late she went out to see who was on her place. She was confronted by flames sweeping the side hill not far from the house.

Her daughter and son went for help Mrs. Hickin gave battle to the flames to keep them from communicating to the barn full of hay and to her house.

Employees from the Goldstein vineyard were quick to respond and soon the Boyes and Valley Fire Department came up the steep mountain road with the chemical engine and succeeded in saving the building on the place and stopped the fire from spreading. This is the first time a motor fire engine has ever been in that vicinity.

Mrs. Hickin was thoroughly exhausted after the experience and was in a serious condition. She declares that hunters are becoming more bold every day killing her poultry, peering into her home and shooting everywhere, regardless of signs on the place. She has appealed to the officers to investigate and intends to prosecute any future trespassers.

"FOUR HORSEMEN OF APOCALYPSE COMING ON 18th.

The great film dramatization of Ibanez' romance of the war "The Four Horsemen of the Apocalypse" is coming to Boyes Springs theatre on Thursday night August 18th, and will be the first production of this great screen play north of San Francisco. Those who have read the book and those who have not will marvel at this wonderful moving picture story.

COUNTY ASSESSOR GAVE INTERESTING TALK

County Assessor Hoke Smith gave an interesting talk to the Business Men's Association this week. He pointed out the alarming rise in county expenditure in the past few years. Mr. Smith's object in giving these talks is to show that the assessor does not arbitrarily raise taxes but that there is a plain reason for the present increasing rate due to the demands of the people for all sorts of new things.

AUGUST MEETING OF SONOMA'S CITY TRUSTEES

Accept Report Commending Gravel To Be Used in New Pavement And Transact Business of Municipality.

The Board of City Trustees met Wednesday in regular August session, Trustees Bulotti, Bates, Lewis Lindley and Dobbel being present.

The presence at the meeting of Messrs. Howe and Peters, city engineers, Gorrill and Gorrill, street contractors, Mr. Dinshee their resident engineer, and city inspector Specht, lent interest to the gathering in view of recent criticism of the gravel to be used in paving the new concrete streets and request from the city fathers that the quality of the material should be vouched for in a written report furnished by Howe and Peters.

City Surveyor Specht reiterated his belief that there is 10 per cent doubtful rock in what is being used by the contractors. He offered a report made by an engineer named dents. Mrs. Hickin who resides on was furnished by the city's engineers Howe and Peters that the gravel was good and entirely satisfactory and would make excellent concrete. Trustee Bates made it plain that the object of the Board in making diligent inquiry was to assure the taxpayers that the Trustees were vigilant of their interests and would see that every requirement of the street contract was lived up to.

The gravel is being taken from Sonoma creek and furnished the contractors by R. E. Murphy, who is having the gravel washed and taking particular pains to have the material measure up to the most exact requirements. Specht's contention was that it was soft and inclined to form pockets although he acknowledged it might turn out entirely satisfactory

On motion of Trustee Bates, seconded by Trustee Sam Lewis, the report of Howe and Peters commending the gravel was adopted and placed on file Mr. Specht withdraws as an inspector on the job.

The Marshal's Report, Auditor's Report and Library Report were received. Bids for city printng were awarded.

Chas La Torres of the Businessmen's Association asked that a 2-inch water pipe be laid to the grounds surrounding the Public Library which are to be put into lawn by the association Mr. La Torres also called the attention of the Board to the Spain street road; now heavily traveled and in poor condition. Some repairs to this street were asked for.

The application of Wm. D. Byrne for a plumber's license was granted. A motion to give a street grade to Sam Sebastani prevailed.

The sewer committee was instructed to see about a new roof for the septic tank at the sewer farm.

Henry Lutgens, local merchant, is up at Duncan Mills enjoying his annual vacation. Mrs. Garry Bartoli is the accommodating substitute for Mr. Lutgens at Batto's store.

Henry Weber Jr. of the Sonoma Valley Bank started out this week in his sedan car for a trip to the Yosemite. He is taking his annual vacation.

Mr. and Mrs. Maurice Power of S. F. and little daughter, Molly have been visiting at the Cameron and Shofner homes. The Powers have many friends here where they formerly resided and are always welcome visitors.

Material is at its lowest, don't put off your painting or it will cost more. Muller & Downey. Phont 33 F 13

SONOMA'S OIL LANDS MAY RIVAL COALINGA'S FIELDS

Experts So Declare and Local Capital Signs Up 800 Acres In Western Part of Valley.

That Sonoma oil land may rival that of Bakersfield and Coalinga is the startling assertion of geologists of prominence and as a result local capitalists headed by E. J. Harris have been signing up acreage in the western part of the valley. Already about 800 acres in the vicinity of El Verano have been signed up, and property owners realizing the vast benefits to be derived as a result of a thorough test have been promptly signing the leases. Some clauses which have been objected to in the lease have been modified, and the coming week, Mr. Harris will interview property owners with a new form of lease and expects to get everything in shape to put down a test well at once. Local capital will finance the move to determine Sonoma oil wealth and every one should co-operate to encourage this great project which may revolutionize property values and usher in a greater prosperity than this valley ever dreamed of.

Mrs. Eliza Shepard who returned from Merritt hospital some time ago is now in splendid health and is making arrangements to have some of the prize Jack London cattle shipped to Sacramento where they will participate in the State Fair.

The London ranch was recently the scene of great festivity when one of the popular employees of the ranch, Mr. Parsalow returned home with his bride. A chivari and banquet was given and proved an innovation to the New York bride who says western hospitality and congratulations are truly genuine.

Ben Chambers of Boyes Springs was among the recent Sonoma Valley boys who joined the Elks. Mr. Chambers' folks are pioneer residents of Sonoma County and he is one of the livest wires in these parts.

A RIDICULOUS AND COSTLY SPECTACLE

SECRETARY MELLON is going to take the tax off our ice cream sodas and put it on our letters, and a three cent stamp may soon be necessary to send the envelope through the letter drop at the post-office. The use of soft drinks may be encouraged by the taking off of the tax, but at the same time hard drinking continues and boot-leggers are laughing in their sleeves at the immense liquor traffic getting by without a cent of taxes. This piece of injustice or midsummer madness is costing the country millions, wherefore big men like And. Mellon must make themselves rediculous by shifting the burden from innocent ice cream imbibers to thoughtful writers of letters, to already over-burdened auto owners who are to be taxed another ten dollars cash, and to tired business-men and Jerries, indulging in the sedative of their favorite smoke. Liquor should pay, but it won't as long as the government lets fanatics pull the wool over its eyes and swallows, or tries to, the fanciful tales of the great American aridity.

Missionaries from India are more considerate about the finances of that country which they want to see dry, but admit that the $40,000,000 revenue from taxes on liquor are not to be sneezed at since this money is paying teacher's salaries there. They therefore recommend a "gradual prohibition" until other means of raising revenue can be devised. We should have had a few of these missionaries in the U. S. A., instead of following the hysterical program we did and cutting off one of the biggest sources of revenues on which we were dependent at a critical financial period in our history.

Thousands are paying a direct tax to boot-legger's treasuries now while the government gets nothing and is spending immense sums to try and cheat the illicit dealer out of "his". Mr. Boot-legger, however, waxes fat, salaried sleuths make a bravado showing to hold down their sneaky jobs, while the people are called on to pay for innocent pastimes and necessities to carry on this colossal folly.

HOW SCHOOL TEACHERS SHOULD DRESS

TRUSTEES OF SOME SCHOOLS have had to specify that conservative taste in dress would have to be the qualification of teachers hired the coming term. Just what teachers should wear is nobody's business but their own, but the public has a right to expect good taste at all times rather than the aping of any fashion. Good taste is always to be prefered to style, as many styles are atrocious. With increased salaries, the eternal feminine in our school marm is liable to assert itself in the mad desire to "dress" and we cannot help that, but if they begin to curtail dress and bob their skirts or make themselves conspicuous, trustees have a right to assert themselves. A teacher means more than pointing out lessons in books. A teacher is the youth's ideal and example. She should not confuse herself with the "flapper" in a silly attempt to be in style. Neither should she be eccentric or conspicuous by being too far behind the times. Cleanliness, good taste and the well groomed appearance is what we all like to see in school teachers and other women.

AMERICAN COMMERCIAL GROWTH abroad is being seriously curtailed by the attempt to "hold up" the European buyer. Germany with its factories all intact and Belgium with its usual thrift and foresight, are said to be underselling us 20 to 75 per cent. Coal sent from the United States has been of such poor quality that Denmark, even in emergency, refuses to buy any more of it. America's motto in trade both at home and abroad should be, "good goods at right prices" but we ourselves have spoiled a lot of manufacturers by accepting inferior stuff and by paying an exorbitant price. Good natured patriots accept a quality which outsiders refuse and we only spoil America's chances for trade expansion by tolerating profiteers and fakers in business. Profiteers in the labor market are as answerable in an arraingment of this kind as is big business. Whoever contributes to conditions whereby our industries cannot deliver the goods, quality and quantity, and keep this great nation from competing in the markets of the world are domestic enemies and more traitorous than alien enemies.

THE TROUT CATCH is now limited to 25 fish. Strange, when we read of the millions of fish planted in our streams each year and the hatcheries going full blast. Either there must be awful good fishermen now days or awful bad closed season laws or awful propagandists in the Fish and Game Commission. When nature replenished our trout streams, we all got fish and plenty of 'em.

SCIENTIFIC ADVICE to farmers suffers an awful slump when fruit trees die from scientific spraying and sheep succumb to scientific dipping. Both have happened of late in this county. We believe too many callow youths pose as scientific farmers and hold down jobs they have no business to hold. A degree of common sense is more essential in farming than a college degree.

UKIAH HAD AN ELECTION the other day to buy a municipal gas plant. The male voters all went deer hunting and the women did the voting — as usual. they "keep the home fires burning. Primative man must fire his bullet, advanced woman must cast her ballot.

G. B. DANIELS who was formerly State Market Director, is now on the State Board of Control. Daniels probably didn't like the job of regulating fish prices and similar fishy practices when he found out that the people were the "poor fish".

"CALIFORNIA is the leading honey State." That's one reason for the B. B. campaign.

YOU DON'T GET shop worn when you shop in Sonoma, ladies.

CHORAL CONTESTS DRAW ATTENTION.

SACRAMENTO, Aug. 1.—Some of the best choral societies in the state will participate in the community planned as a feature of the State Fair to be held here September 3 to 11. Mrs. Fred Harvey of Galt, who has charge of the contest, announces that among the entries received to date are the Southern Pacific Glee Club of Sacramento and the Cornish Miners Club of Grass Valley.

Mrs. Harvey is being assisted by members of various clubs throughout the state.

$65.00 PER TON FOR GRAPES BUT FEW VINEYARDISTS SELL

Sonoma Valley vineyardists are sitting tight and watching prices of grapes like they would a clock. $65 per ton, now being offered by local buyers for mixed varieties does not look good to Sonoma grape men, although some years ago $20 was considered a good figure. Buyers will do better for Alicante Bouchet grapes, or where this highly colored variety is in a vineyard with other grapes such as Zinfandel, somewhere between $65 and $90 may be secured but bargains are hard to drive, say Sonoma buyers. It is reported in some parts of the state that wine grapes are going begging. "Rof" declare the Sonoma Valley vineyardists, and they refuse to accept current prices.

Fire from some unknown cause started in the hills just back of the Grandview hotel in Marin county, Monday afternoon, and destroyed a number of bungalows and summer cottages. (The number is given at eight or ten.) Several of them were occupied at the time, from which the inhabitants fled for their lives. These summer homes belonged to people residing in the city and were mostly used as week end rests. This district is better known as a spur of Black Point. SONOMA HIGH DISTRICT ENTITLED TO LOS GUILOCOS

With the annexing of districts to the various High school districts since the enactment of the new bill redivisioning union High schools of the state, it appears that the Triniti district has become a part of Sonoma High but that Los Guilocos has been annexed to Santa Rosa. Since the Los Guilocos school recently voted in favor of consolidation with Glen Ellen and Dunbar and there is to be a consolidated school at Glen Ellen, it would seem that we shoud have Los Guilocos in the Sonoma Valley Union High district. Furthermore Los Guilocos is in our Supervisorial district so Supervisor Lowell should not let it get away.

With the building of Sonoma's new High school we will have many advantages to offer the students from the upper part of the valley.

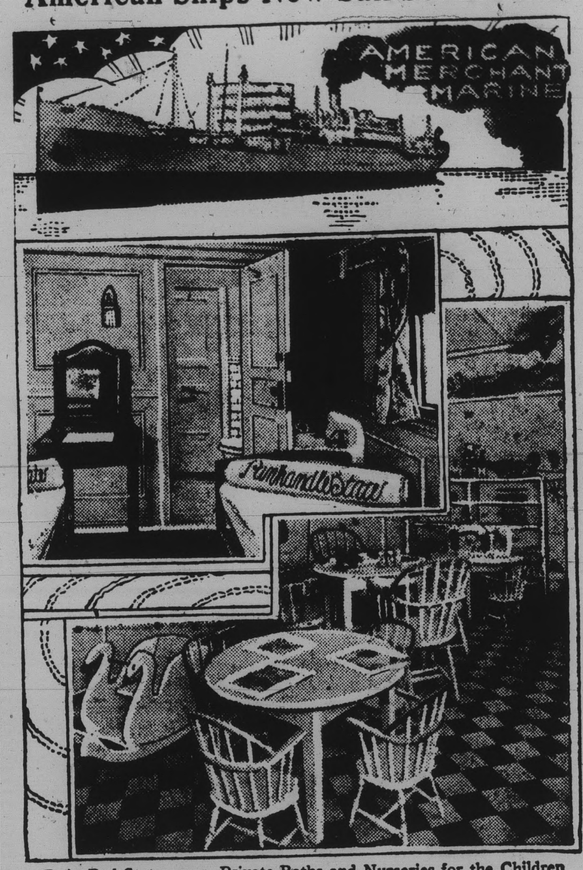
American Ships Now Sail Seven Seas



Twin Bed Staterooms, Private Baths and Nurseries for the Children Give Hints of Luxuries Provided on Ships of the New American Merchant Marine

ANYWHERE in the world on an American ship! Americans no longer need go to sea or ship their goods in foreign bottoms. That, to-day, is the proud message from the National Capital to the American people.

From every port in the country now sail stately and luxurious vessels, under the American flag, carrying passengers and cargo to every country in the globe.

The nation, through the United States Shipping Board, is flinging a new Declaration of Independence to the world, independence of foreign vessels, for American travelers and commerce.

With a proud merchant fleet numbering 3,700 vessels of 19,533,890 deadweight tons (not including small ships), according to official figures compiled to May 1, it is now "up to" the people of the United States to keep that fleet on the seven seas. Of this great total the United States Shipping Board owns and controls 1,720 vessels of 11,139,406 deadweight tons.

"We must take the huge corporation, the largest the world has ever known, and make it an institution of which every American will be proud," declares Albert D. Lasker, chairman of the United States Shipping Board.

"Our Merchant Marine must be sustained if it is to be permanent," declares Rear Admiral W. S. Benson, commissioner of the United States Shipping Board.

Not only in quantity does the American fleet excel, but in quality. Here are some of the features of many American passenger vessels to which the travelling public has been accustomed only on big foreign liners:—public rooms with palatial lounges and music rooms; palm garden verandas and writing rooms; ball rooms, glass enclosed promenades, swimming tanks, twin beds, shower and tub baths.

After forty-six years service in the United States Navy, during which time he saw the American flag, except on ships of war, almost disappear from the ocean, and now chief officer of the greatest single fleet of merchantmen ever constructed, Admiral Benson is asking his countrymen to support their fleet.

"We have the ships," he declares. "The United States Shipping Board is using every endeavor to build up this vast fleet into a profitable enterprise, but we need the cooperation of every American."
